

Let us present - **Rothband** - our new distributor in **United Kingdom**. After more than 10 years with **Wolverson X-ray** as our distributor, we have signed a retail agreement with Rothband to represent all of our products and concepts in UK.

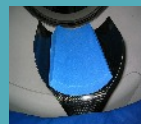

This will be a reunion with the man who was first to introduce us to the English market - **Mr Gurpal Matharu** - M: 44 (0) 7867 101385 or gurpal.matharu@rothband.com .

His eager and powerful work in the early 2010th made our **TraumaTransfer™**-concept a reference product with new opportunities for the staff to handle patients safer and more cautious in the emergencyroom.

As a consequence of our change of distributor, all of our products will be delivered from Rothband after 2025-01-01.

"If there is a product on the market that is good but can be done better, we will make a better solution. If there's no solution and just a framework with issues and obstacles reported, we will invent and present a durable solution".
