
ARIA 8020 GENERATOR

THE ULTRA LIGHT
X-RAY SOLUTION

ARIA 8020 HF

The **ARIA 8020 portable generator** is the ideal solution to meet the needs of the equine practitioner. This portable generator combines an extremely low weight with optimum handling.

The high power output of 1,6 kW guarantee high performance with stifle, cervical and spine's images of the horse.

The high quality image capture, enhanced usability, and unparalleled portability serve a wide range of radiographic applications, whether your practice is mobile, clinic based or both. It is quickly ready for use and with the serial DR interface, the X-Ray unit can be connected to any digital radiography system without problems.

- Lightweight & High Power (6.4 kg, 1,6 kW)
- High Frequency generator: max. potential 20 mA at 80 kHz
- Collimator light can be activated via the hand switch
- Acoustic and optical timer signal
- 5 memory buttons
- Dual laser pointer
- Tape measure for film – focal spot distance
- Aluminium casing for practical transport

Standard Accessory: Power cord cable, exposure hand switch, metal carrying case and manual.

Output: 20mA@50–80kV (0.02 – 0.10 sec.)

15mA@50–80kV (0.11 – 2.0 sec.)

Timer: 0.02–2.00 sec

AC input: 230V (50/60Hz)

Size: W 182mm × H 157mm × L 299mm

Focal Spot: 0.8mm

Total filtration: 3.0mm Al equivalent

Memory storage: 5 presets

Laser pointer: Dual laser

Size: W182mm×H157mm×L299mm

Weight: 6.40 kgs
