(1 pair of transparent type)
- Opaque Set: 11387-200
(1 pair opaque type)

11387-000 (transparent + opaque type)

⚠ Caution

- This is a disposable product.
- The aqueous material used in this product contracts as time passes after the package is opened.
- After opening the package, store the product along with the case within a sealed bag or a similar container.
(This method is only for temporary storage. You can delay, but cannot stop contraction and deformation of the product by this storage method.)
- No fluid injection is allowed.
- Do not stretch or press hard on the puncture area.
- Dispose the product as general waste after use.

1. Before training

① Remove the back cap on the case.

② Remove the film from the case.

③ Take out the product from the case while inserting a finger between the case and the product to let the air get into between them, then put the product on the back cap.

2. Training session

① Conduct puncture training under ultrasonic guide after applying water or ultrasonic gel on the product.

※ Temporary storage

After you have removed the transparent film from the case, store the product along with the case after closing the back cap in a sealed bag or similar container. (The product can be stored only for a short while by this method.)

Caution

Don't mark the phantom with a pen or leave printed materials in contact with its surface. Ink marks on the phantom will be irremovable.

Transparent type

■ Specifications

Size of targets: 6 mm dia. and 10mm dia.

Type of targets: Hyperechoic (blue)

Number of targets: 12 pieces

Phantom size: 136mm dia.x70mmH

Phantom weight: 700g

Opaque type

■ Specifications

Size of targets: 6 mm dia. and 10mm dia.

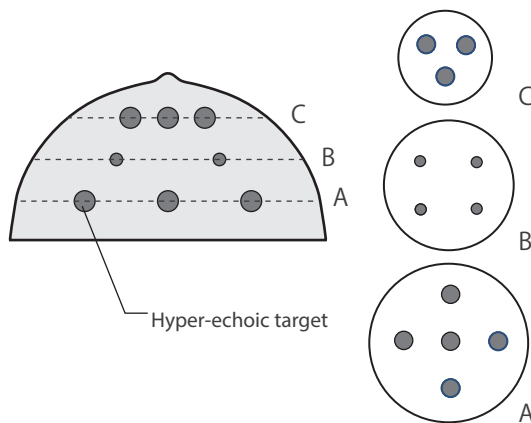

Type of targets: Hyperechoic (blue),

Hypo-echoic (red) Number of targets: 12 pieces

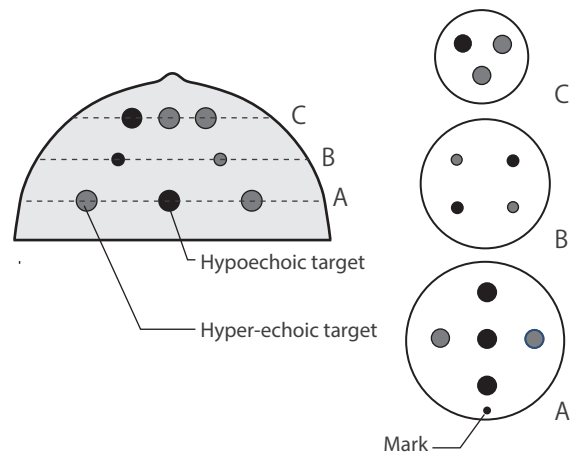

Phantom size: 136mm dia.x70mmH

Phantom weight: 700g

■ Targets in the breast phantom
